Spring, 2010

Students may volunteer by working on an independent project. Students should call the museum (548-4940) or email the Museum Director, Mary Beth Spingmeier, at histsoc@ftg.net to make arrangements to discuss project ideas. Students should still contact the museum to see what accommodations can be made. The following is a list of some of the projects and activities that can be made available to student volunteers for community service; however, the director is open to other ideas that fall within the scope of the museum's needs.

Create a children's activity book with coloring pages and puzzles to sell in the gift shop.

Write/design chap-books (small pocket size booklets/pamphlets) for example: a guide to Phelps cemeteries.

Write (researched) articles for the news letter.

Create a geo-cache game in Phelps.

Develop a photo contest: "My favorite Phelps".

Work on orally captured tales/memories from their generation or their parents' generation for volume II of "Phelps Folklore".

Make a podcast for historical society website.

Work on website "for the kids" by writing an article or putting a movie together.

Learn how to do a genealogy and then research someone's genealogy.

Help create a window exhibit for a downtown storefront in Phelps.
